EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin P. Radigan, Reg. No. 31,789 on 7/6/05.

2. Claim 1, line 2, change "each CCU" to --each CCU of--.
3. Claim 16, line 2, change "CCUs" to --(CCUs)--.

REASONS FOR ALLOWANCE

4. The claims 1-32 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a structure as in claim 1 and 16 and method as in claim 28 comprising "multiple coolant conditioning units" wherein each CCU comprises "a heat exchanger", "a first cooling loop with a control valve" having "facility coolant" and "a second loop" having system coolant to one of a plurality of "electronics subsystems". The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render said independent claims 1, 16 and 28 and all claims dependent therefrom patentable over art of record.

5. The closest references to the present invention are believed to be as follows: Takahashi et al. (US 6,182,742) teaches a cooling system comprising an electronics system and multiple coolant conditioning units wherein each CCU comprises a plurality of heat exchangers, each having a first cooling loop containing facility coolant and a

second loop with a control valve containing system coolant to cool the electronics system, but fails to teach multiple electronic subsystems and a first control loop with a control valve.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
